Thessaloniki, Greece

Date of Birth: 28/6/2000

PROFILE

Entry level Software Engineering and Web Development student at SAEK AKMI, with a strong foundation and practical knowledge in software development, web applications, and database design. Passionate about technology, I aim for professional growth in the IT field through continuous learning and adoption of new technologies. I enjoy building projects and I am always looking for opportunities to contribute to real-world solutions that deliver genuine value. Quick to learn, detail-oriented, motivated.
